

**COMBINED DECLARATION FOR REISSUE
PATENT APPLICATION AND
POWER OF ATTORNEY**

(Includes Reference to PCT International Applications)

Attorney's Declaration
Number
F-7824

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name,

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,249,998, granted June 26, 2001, and for which a reissue patent is sought on the invention entitled:

MOVING VIRTUAL DISPLAY APPARATUS

the specification of which (check only one item below):

- ☒ is attached hereto.
- ☐ was filed as United States Reissue application
Serial No. _____
and was amended on _____ (if
applicable).
- ☐ was filed as PCT international application
Number _____
and was amended under PCT Article 19
on _____ (if applicable).

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a).

I believe the original patent to be wholly or partly inoperative or invalid, for reasons described below.

I claimed less than I had a right to claim and now seek broader claims which omit at least the limitation of claim 1 requiring: said support member having lighting control means for selectively lighting individual respective ones of said luminous devices at predetermined discrete positions of the respective luminous devices within said swing arc as determined by detection of positions of said support member along said swing arc to create said light display along the swing arc of said support member.

R-7824

I claimed less than I had a right to claim and now seek broader claims which omit at least the limitation of claim 1 requiring: said lighting control means including a self-contained position detection means disposed on said support member for determining said positions of said support member and thereby positions of the respective luminous devices by having a body displaceable relative to said support member by movement of the support member and determining said position based on displacement of said body relative said support member.

I claimed less than I had a right to claim because priority was not perfected to secure benefit of the foreign filing date of April 12, 1993, and I now seek perfection of priority to remove the EP 0 546 844 A2 reference as prior art, which error of not perfecting priority in the original patent resulted in claiming less than I had right to claim.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

POWER OF ATTORNEY: As a named inventor, I hereby appoint the following attorney(s) and/or agent(s) to prosecute this reissue application and transact all business in the Patent and Trademark Office connected therewith.
